

Assistant Director for Research and Reports

21 August 1956

PAGE : Chief, Economic Research

Chief, Materials Division

Transmittal of Project 23.6X, "The Ferrous Metallurgical
Industry of Hungary."

1. Attached are 3 manuscript copies of the subject project.
This project was reviewed by the D/R Review Board on 3 August
1956. The attached drafts have been revised according to the
recommendations of the Review Board.

2. This paper represents a thorough analysis of available
all source intelligence material. The limitations of source
materials available, however, has prevented the complete de-
velopment of some phases of the subject.

3. Publication is recommended as a PP.
